

SOUTH FLORIDA NEWS

Chapter Announcements

- ◆ Our next meeting will be held on Thursday, February 10th, 2022 from 6:00 PM to 8:00 PM. This month's topic is "Pre-manufactured Commercial Plumbing Systems". This topic will cover the development of premanufactured medical, bathroom and kitchen units and why it's important to all of us. Please [register](#) here for more information.
- ◆ We are asking all members to save these dates:
 - Thursday, June 9th, 2022—Tabletop Expo & Bowling Tournament
 - Friday, November 4th, 2022—2nd Annual Clay Shooting Tournament

ASPE Pipeline

Keep up to date with everything ASPE on the [ASPE Pipeline](#).

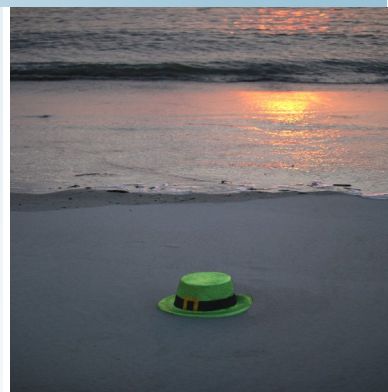

About ASPE

The American Society of Plumbing Engineers (ASPE) is the international organization for professionals skilled in the design, specification and inspection of plumbing systems. ASPE is dedicated to the advancement of the science of plumbing engineering, to the professional growth and advancement of its members and the health, welfare and safety of the public.

The Society disseminates technical data and information, sponsors activities that facilitate interaction with fellow professionals, and, through research and education, expands the base of knowledge of the plumbing engineering industry. ASPE members are leaders in innovative plumbing design, effective materials and energy use, and the application of advanced techniques throughout the world.

The SOUTH FLORIDA NEWS is a publication of the Miami Chapter of the American Society of Plumbing Engineers. The Society or Chapter assumes no responsibility for any advertisements, statements by any officer or member which may be construed as an approval or disapproval, or official position of the Society, of the material contained herein. Local Chapters are not authorized to speak for the Society.

ASPE Connect

ASPE Connect: One of the Best Things ASPE Has Done in Years

- Since the launch of ASPE Connect—the hottest online community for plumbing industry professionals—thousands of plumbing engineers and designers from around the world have benefited from its shared knowledge and expertise on a daily basis. In our Open Forum, you can get quick answers and advice from numerous experts, often within minutes. ASPE Connect is free for ASPE members and we also offer a 30-day trial for nonmembers, so what

Presidents Report

Cha...cha...cha...changes!

In 2023, the ASPE South Florida Chapter will celebrate its 50th anniversary. This is a huge accomplishment, and we are already planning for this momentous occasion.

To learn more about the history of our chapter, I am asking that if anyone has any information and/or photos of chapter activities from past events to please submit

them to me so that we can document our growth over the years. This is very important, and we want to make our anniversary celebration one to remember.

Over the past years, our chapter has seen many changes and for many years was very inactive. However, in the past year the chapter has seen significant growth and has gotten stronger. All of this could not have been accomplished without our members. It is your continued support that has helped the chapter become strong once again.

There are still many members that have not joined us at a meeting and/or social event. We need you to come out and see what our chapter can do for you. We have our monthly technical meetings that have been offering new and innovative topics to help keep you in tune with the changes in our industry. We are offering new social events to allow you to interact with other members and our sponsors. The rejuvenation of the chapter will allow you to gain much more than ever before.

I want to invite all of you that have not attended a meeting in the past year to come out and be part of the new emergence of our chapter...come out and see what you have been missing.

A handwritten signature in black ink, appearing to read 'Vincent'.

Technical News

Elvira Pita-Mejia — Chapter VP-Technical

“Education is not the filling of a pail, but the lighting of a fire.” — W. B. Yeats

The ASPE South Florida Chapter takes pride in not only lighting the fire of education amongst ourselves and our community but keeping that fire of learning alive. Each month we offer technical meetings which offers the opportunity for continued education in the Plumbing field.

Our February 2022 meeting was a perfect example...Daniel Rourke and Right Way Plumbing sponsored the meeting and presented on “Pre-manufactured Commercial Plumbing Systems. This meeting was well attended and we had the opportunity to learn about the development of premanufactured medical, bathroom and kitchen units and why this form of construction is creating an impact today. Did you know that one of the benefits of using pre-manufactured systems is that the interior modules can be constructed off-site at the same time you are pouring the building foundation? This makes for a huge time savings on a project. Thank you Daniel & Right Way Plumbing.

ASPE South Florida Chapter – March, 2022 Technical Meeting

This month the ASPE South Florida Chapter is meeting at the Fairfield Inn & Suites at Delray Beach on March 10, 2022 from 6:00pm-8:00pm. Our Speaker this month is David Dears of Victualic. In this technical session we will discuss innovative solutions for the control and management of commercial potable water systems. Registration is easy! Please [ASPE Miami Chapter - Home Page](#)

Read, Learn & Earn

Every month ASPE publishes a new 12-question quiz with an accompanying chapter or article from one of our publications. Each quiz is available for twelve months. Each quiz is free for ASPE Members and \$35 for nonmembers. Through this special series, ASPE can help you accumulate the CEUs required for maintaining your Certified in Plumbing Design (CPD) or Certified Plumbing Design Technician (CPDT) status or numerous regulatory-agency CE programs. To find out more, please visit: <https://education.aspe.org/RLE>

ASPE 2022 CPD Review Class & Exam - Are you considering taking the Certified in Plumbing Design (CPD) exam this year? If so, why not get prepared by registering for the ASPE 2022 CPD Review Class. To find out more and/or register go to [CPD Review](#). The 2022 CPD exam will be held via remote proctor between April 11–22, and registration is now open for eligible candidates. To determine if you are eligible to sit for this year’s exam go to [CPD Testing](#).

Commercial Water

INSTALLS EASY. WORKS HARD.

TRITON[®]

With flexible venting options and multiple connection points, Triton[®] replaces other brands with ease. And with built-to-last construction, it keeps working when other water heaters want to quit. So once you install it, you won't have to worry about it for a long, long time.

THE MOST INTELLIGENT HIGH-EFFICIENCY GAS WATER HEATER ON THE MARKET PROVIDES:

- **Universal Retrofit** – Easy piping with a total of five water inlet and outlet connections
- **Systematic Health Checks** – Ensure the unit is performing
- **LeakSense™ & LeakGuard™** – Detect and prevent water leaks before they become a problem
- **Preventative Maintenance Alerts** – Allow you to establish ongoing service contracts

Membership Corner

David Erickson — Chapter VP-Membership

Greetings Members,

I have good news, we have been growing our membership base every month this year and February was a record month with 9 new members, please join me in welcoming them to the ASPE South FL Chapter.

- Mr. Muoki Ndaka
- Mr. Alejandro Perez
- Mr. Daniel Garcia
- Mr. Pedro Perez
- Mr. Jorge Bahamonde LEED AP, G.E
- Mr. Roderick Lacroix
- Mr. Joseph Wilson
- Mr. Ryan Ellison
- Mr. Raymond Cwiek

As of Feb 28, 2022 ASPE, South FL Chapter has moved up to 4th place in Regions 3 with a total of 86 members. Region 3 now has a total of 834 members. Please keep talking to your associates about joining our awesome chapter, we have room for everyone.

Thank you for reading and have a great day,

David Erickson

Affiliate Report

Scott Smith—Affiliate Liaison

The ASPE South Florida Chapter invites all engineers, architects, manufacturers, manufacturer representatives, wholesalers, and contractors to join our chapter. We are all in this together and by being on the same page, everything runs much smoother. We learn something new every day. Join us and be a part of it. ASPE disseminates technical information, industry updates, and other news through a variety of publications and media:

- ⇒ [ASPE Pipeline](#): The only news site dedicated exclusively to ASPE, our members, and the plumbing engineering industry
- ⇒ [Plumbing Engineering Design Handbooks](#): The foundation of ASPE's publishing program, this four-volume set contains technical details on plumbing system design and installation practices. Each year an updated version of one volume is published after undergoing an intensive review and revision process.
- ⇒ [Press releases](https://www.aspe.org/publications-news/press-releases/) (<https://www.aspe.org/publications-news/press-releases/>)

At our [Bookstore](https://www.aspe.org/education-credentialing/bookstore/) (<https://www.aspe.org/education-credentialing/bookstore/>) you can find our top-selling design handbooks, including:

- *Engineered Plumbing Design*
- *Domestic Water Heating Design Manual*
- *Advanced Plumbing Technology*
- *Fire Protection Systems*
- *Pumps & Pump Systems*
- *CPD Review Manual*

Mark your calendar for the ASPE South Florida Bowling Tournament on June 9th, 2022 at Bowlero, 841 Way Pointe Place, Dania Beach. Check-in starts at 5:30pm.

What Is ASPE Connect?

ASPE's newest member benefit! ASPE Connect is an online community where ASPE members can find answers to design questions, build relationships, share successes, brainstorm ideas, and get career advice. You can access ASPE Connect 24/7 from any computer or mobile device.

ASPE CONNECT BY THE NUMBERS

WAYS TO LEVERAGE ASPE CONNECT

1. Get answers to your most pressing questions
2. Build relationships with fellow professionals
3. Offer your advice and knowledge to other members

MOST POPULAR DISCUSSIONS

ASPE members are actively talking about:

- High-rise domestic hot water design
- Grease interceptor sizing
- Revit use for engineers
- Flow in sewer lines
- Medical gas sizing
- CPVC piping

HOW TO GET STARTED

- STEP 1 ➤ Go to connect.aspe.org
- STEP 2 ➤ Click the blue "Sign In" button
- STEP 3 ➤ Select "Confirm your email" and enter your email
- STEP 4 ➤ After receiving the email, set your password and log in to the community
- STEP 5 ➤ Fill out your profile
- STEP 6 ➤ Go to the Open Forum and start connecting!

Women of ASPE

Elvira Pita-Mejia — WOA Liaison

Did you know that 128 women serve on ASPE Chapter Boards? Since its inception, the Women of ASPE (WOA) has been dedicated to helping women gain leadership opportunities, which is evidenced by the increasing number of women who serve as local ASPE Chapter Officers each year.

This organization is open to women who have an active membership with the American Society of Plumbing Engineers. For more information you can contact me at woaliaison@aspemiamichapter.com or check out our website - <https://www.aspe.org/membership-global-community/membership/special-interest-groups/women-of-aspe/>

Sincerely,
Elvira Pita-Mejia

Education Update

Kyle Stottlemeyer—Education Chairman

Here we are, already in March. This year is flying by. Hope everyone is Healthy and busy with work, I know we are exhausted. Remember to look out for upcoming events. Hope you enjoy this article, I found it very interesting. Today's water pipe sizing practices are outdated and don't consider the decreased volumes of water used by widespread low-flow fixtures, which leave water in the pipes and increase building water age.

The fixture unit method used to calculate water pipe size in most codes is based on the outdated Hunter's Curve, developed back in the 1940s when plumbing fixtures were consuming water at much higher volumes. The plumbing engineering community must question why we are using a calculation method that fails to reflect the reality of today's low-flow designs. When water was flowing at higher volumes through plumbing systems, the water purveyor's primary and secondary disinfectants had the best chance at eliminating waterborne pathogens, because the chemicals used have a certain shelf life. The use of low-flow fixtures in conjunction with outdated water pipe sizing practices allow the disinfectants to expire before the water reaches your faucet. As a result, pathogens are given the opportunity to grow and multiply inside the building pipes.

Standards put out by the CDC, ASHRAE, the Occupational Safety and Health Administration OSHA) and World Health Organization (WHO) are encouraging building owners and plumbing engineers to elevate the domestic hot water in our hot water supply and return systems to reduce the development of Legionella and other waterborne pathogens. But without improved plumbing system intelligence beyond the mechanical room, how do we know about domestic hot water distribution system performance in the distant pathways of our buildings? The answer is: We don't. We are putting occupants at risk every day with current plumbing infrastructure designs.

The time is now. We must consider applying the same level of technologies and controls currently in place in our building's HVAC systems to our plumbing systems. Plumbing systems must get smarter and our water management programs must be informed by more sound intelligence. Right now, most connectivity from the plumbing systems to the building automation system takes place in a mechanical room. But this simply isn't enough to provide the intelligence required to effectively improve water quality and occupant safety for years to come.

Plumbing systems are the area where waterborne pathogens thrive. We must focus the time, energy and investment required to alleviate this problem and deliver the water quality and safety that building occupants deserve. It's high time our plumbing systems become data driven.

Going forward, if anyone would like to share any hot topics that might be informational to our viewers, please feel free to drop me an email with your topic to kylestottlemeyer@gmail.com. Thank you for taking time out to read this month's article.
