

ASPE Education & Research Foundation

The ASPE Education & Research Foundation, established in 1976, is the only independent, impartial organization involved in plumbing engineering and design research. The science of plumbing engineering affects everyone . . . from the quality of our drinking water to the conservation of our water resources to the building codes for plumbing systems . . . our lives are impacted daily by the advances made in plumbing engineering technology through the Foundation's research and development.

Our Mission

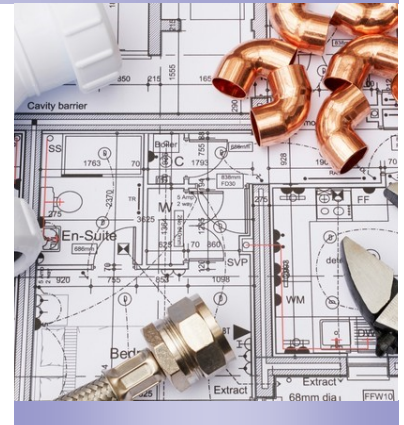

The mission of the ASPE Education & Research Foundation is to facilitate research that advances plumbing engineering by improving the understanding of plumbing systems for the public good.

To accomplish this mission, the Foundation:

- Identifies and evaluates specific technical research areas
- Finances research in plumbing engineering and sciences
- Sponsors and coordinates definitive projects
- Educates the plumbing engineering and design community
- Publishes research findings

**MAKE PLUMBING
GREAT AGAIN**

Presidents Report

David Erickson — President

Greetings Members,
Our March technical meeting was very informative, Reece Hoben educated the group on new innovations in Med Gas piping.

Our next technical meeting will be on Thursday April 10th at Famous Dave's BBQ in Doral. For more information scroll down to Elvira's newsletter article. If you haven't signed up yet, please do so at your earliest convenience.

Our Chapter is constantly looking for individuals to help us to become bigger, better, stronger, and to provide our members with educational opportunities to grow professionally. If you have any topics or locations that would benefit our meeting, please reach out to any of our board members.

Special Acknowledgements

I am acknowledging Scott Smith as he has participated at yet another university to engage more students to better understand what the importance is of ASPE. Please reach out to Scott for more information on his last event. If you have a son or daughter that is in High School or college and is interested in our industry, please let us know so we can find a way to participate at their school.

New Members

Below are our new members that have joined over the past 30 days, please take time to speak with them at

Technical News

Elvira Pita-Mejia - VP Technical

VICE PRESIDENT, TECHNICAL REPORT

Happy Spring to all! Spring is symbolic of **renewal, growth, and new beginnings**. The ASPE South Florida Chapter embraces this time of year as an opportunity to continue to grow in learning new things in our industry, grow in numbers as a Chapter and grow in our commitment in advancing the field of plumbing engineering.

April 10, 2025 – ASPE South Florida Chapter General and Technical Meeting

For the first time ever a student speaker will be presenting on a topic she has been working on for some time. Kyras L. Williams, BSAE, M. Arch - PhD Student, Department of Civil and Architectural Engineering at the University of Miami has accepted our invitation to speak about her findings on water quality.

This month's meeting will be highlighting engineering students in our community. In addition to Kyras presenting, we are inviting students throughout South Florida to attend.

The meeting will be held from 6-8pm at Famous Dave's, Doral. Registration is easy – click on link below.

<https://aspemiami.com/meetinginfo.php>

If you are interested in presenting at an upcoming Technical meeting please contact me at epita@spiritgroupinc.com

April 7-18, 2025 – ASPE The Certified in Plumbing Design Examination

This month several of our members will be taking the ASPE CPD exam. The CPD exam or also known as [The Certified in Plumbing Design Examination](#) has been developed by the American Society of Plumbing Engineers to provide professional recognition of qualified individuals who design plumbing systems. The examination is held via remote proctor from April 7-18.

We wish all those taking the exam this cycle the best of luck!

Participation in ASPE

As the voice of the plumbing engineering industry, ASPE is sought out to provide the latest technical and legislative information as well as education and career growth opportunities for plumbing system design professionals. ASPE is dedicated to the advancement of the science of plumbing engineering, to the professional growth and advancement of our members, and to the health, welfare, and safety of the public, but we need the experts—our members—to help fulfill those goals. Your practical experience and knowledge will help ASPE provide top-notch service for our ASPE family members and other industry professionals worldwide. Becoming involved is not a one-way street. Volunteering provides you with resources to keep up with the technical aspects of our industry. You will make new contacts and increase your voice. You also will have direct influence on plumbing engineering and become a recognized leader in the industry. If you are interested in learning more about ASPE South Florida and how you can participate, visit us at the next monthly technical meeting on Thursday April 10th at Famous Dave's in Doral. Networking hour begins at 6:00 pm, Technical meeting begins at 7:00 pm.

Secretary's Notes – April 2025

Our March technical meeting was held at Maggiano's Little Italy for the benefit of our N Broward and Palm Beach members.

The meeting presentation was by Reece Hoben from Meditrac who gave us an excellent presentation on "New Innovations in Medical Gas Piping".

Some details about the meeting:

- Total attendance of 17
- RSVP total was 14, the winner was Elvira Pita Mejias
- 50/50 yielded \$185 – Selma Mora won \$95 prize money

Our next meeting will be held on Thursday April 10th in Miami Dade on at our usual location, Famous Dave's BBQ in Doral. Please watch out for more information.

Our next last event before our summer break will be at Top Golf Doral, with the addition of a Manufacturer's Tabletop Show on Thursday June 12th at Bowler in Dania. The event is sold out and teams are coming together already. We expect a great turnout for an evening of fellowship and fun.

Last but not least we hope to see all our members at the ASPE Symposium coming up in September. It's a great opportunity for continued education and to network with colleagues from chapters nationwide.

Please be sure to communicate your suggestions and needs to the BOD. Any one of us would be happy to bring you concerns before the board. We need input from our general membership to help our chapter's growth and service to the industry grow.

Stay informed of meetings and social events in our newsletters. We have a great year in full swing with bigger and better things to come.

God bless!

Jorge

Women of ASPE

Elvira Pita-Mejia - Women of ASPE

This month I will be participating in a very exciting conference being held in Miami by the ASA Women in the Industry.

ELEVATE2025 is set to take place in Miami, Florida, from April 22 to April 24, 2025. It is designed to empower and support women in the plumbing supply chain, manufacturing, and distribution sectors. The event focuses on professional development, networking, and celebrating the achievements of women in these fields.

Highlights of ELEVATE2025 typically include:

1. **Keynote Speakers:** Industry leaders and motivational speakers share insights and inspiration on various topics relevant to women in the industry.
2. **Workshops and Panels:** Attendees can engage in interactive sessions that cover professional skills, leadership development, and industry trends.
3. **Networking Opportunities:** The event fosters connections among participants, allowing them to build relationships, share experiences, and explore collaborations.
4. **Recognition of Achievements:** Celebrating the contributions and successes of women in the supply chain industry is a key component of the event.

Mentorship Programs: ELEVATE2025 may offer opportunities for mentorship, pairing experienced professionals with those seeking guidance in their careers.

This is my third year attending this amazing conference. I highly recommend all women in the industry to consider attending – especially since it's in our own back yard this year.

Education Update

Kyle Stottlemeyer – Education Chairperson

The American Society of Plumbing Engineers (ASPE) has long been a beacon for professionals in the fields of plumbing design and engineering. Founded in 1964, ASPE serves as a community for education, networking, and professional development. Among its many chapters across the United States, the South Florida Chapter stands out for its commitment to promoting the highest standards of plumbing engineering and design.

We will be hosting an outing at Top Golf Doral this year, replacing the Bowling Tournament. We are Looking forward to seeing everyone at the next technical meeting. Information is below.

6:00 PM - 9:00 PM

The CPD Exam

The 2025 CPD Exam will be held remotely from April 7 to 18, and registration is now open at ASPE Education. The registration deadline is April 1.

As ASPE South Florida continues to grow, it remains dedicated to empowering plumbing engineers and designers while staying at the forefront of industry developments. The chapter is actively working to expand its outreach, enhance member engagement, and provide valuable resources to help professionals excel in their careers.

Going forward, if you have any questions or would like to share any hot topics that might be informative to our viewers, please feel free to email me at kylestottlemeyer@gmail.com.

Thank you for taking the time to read each month's articles.

Affiliate Liaison Report

Alfredo Hernandez — Affiliate Liaison

Dear ASPE Members and Affiliates,

As the Affiliate Liaison for the American Society of Plumbing Engineering (ASPE), I am excited to announce our upcoming event that promises an evening of networking, fun, and friendly competition. On June 12th, we will be hosting a TopGolf outing, and we invite you all to join us!

****Event Details:**

****Date:** June 12th

****Location:** TopGolf Doral

****Time:** 6pm

TopGolf is not just about golfing; it's about having a great time with fellow professionals in the plumbing engineering community. Whether you're a seasoned golfer or a complete beginner, this event is designed to be enjoyable for everyone. It's a fantastic opportunity to connect with peers, make new contacts, and strengthen relationships within the industry.

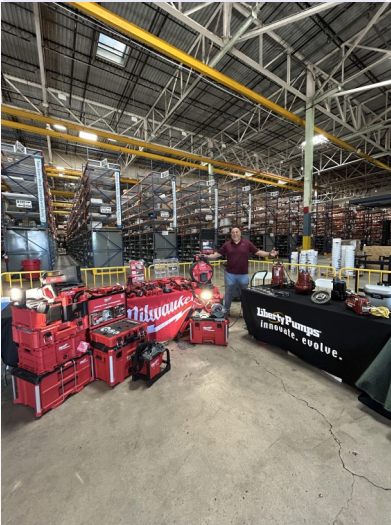

****Sponsorship Opportunities:****

We are currently seeking sponsors for this exciting event! Sponsorships are still open, and this is a great way to showcase your company's support for ASPE while gaining visibility among industry professionals. If you are interested in becoming a sponsor, please reach out to me directly for more details on available packages and benefits.

****Why Attend?****

- Network with industry peers and leaders.
 - Enjoy a relaxed atmosphere while engaging in a fun activity.
 - Learn more about ASPE's initiatives and how you can get involved.
- Please mark your calendars for this fantastic event, and stay tuned for more details as we get closer to the date. We look forward to seeing you at TopGolf on June 12th! Together, let's celebrate our community and enjoy a wonderful evening.

Best regards,
Freddy Hernandez
Affiliate Liaison

A modern bathroom vanity setup featuring a long, white, rectangular countertop with two integrated sinks. The countertop is supported by a dark grey cabinet with two large doors. Above the countertop, two large, rectangular mirrors are mounted on a wall with a vertical wood grain pattern. Four spherical pendant lights hang from the ceiling, illuminating the vanity. The floor is made of dark grey tiles.

Specification, installation, and maintenance made easy.

VP-Legislative Report

Christopher M. Robulock VP-Legislative

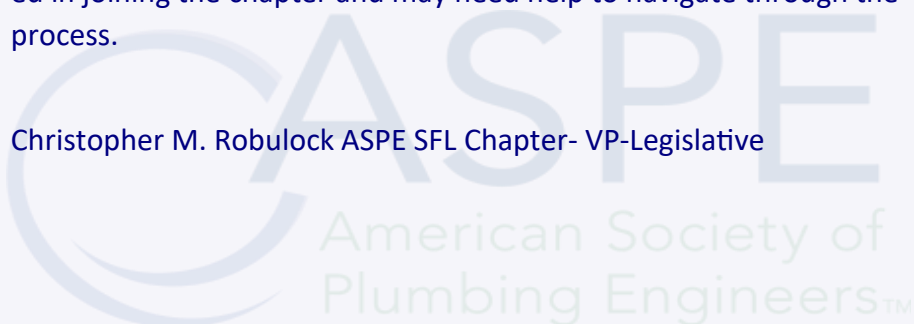

Greetings Members,

Please join us at our next ASPE SFL at Famous Dave's BBQ (mmmm!) —Doral, FL. Stayed tuned for the detail on the meeting agenda. Just an FYI....At our technical meetings, your attendance will automatically enter you to win a trip to an ASPE event, so don't miss out! If you bring an engineer or code-official, your next meal will be free!! Register today!! [ASPE Miami Chapter - Meeting/Event Information](#)

Legislative news—The Florida Building Code, Plumbing—Mechanical Hammer Arrestors (MHA)---Are they required on shower and or tub valves? If you review the [shower/tub valve](#) installation instructions and it will say that MHAs are not required. Now, go to Florida Building Code Plumbing 604.9 and that section advises you to see the installation manual of the [mechanical hammer arrestor](#). The installation manual of a few manufacturers will advise you that MHAs are required to be installed!! We have a conflict here and the code advises that the more stringent shall apply. Solution---Broward County Amendments (BCA) provided some aid to the matter if the MHAs are not installed. Under section BCA 110.3—E-- Plumbing #5 Final Plumbing Inspection “.....Water shock or hammer in the water supply system will cause it to fail the final inspection”. Let your conscience be your guide!! Come join us and learn something every day!

Thank you for reading and feel free to reach out to me or any of our BOD if you have any questions or know of someone who is interested in joining the chapter and may need help to navigate through the process.

Christopher M. Robulock ASPE SFL Chapter- VP-Legislative

MOEN®

M•Power™ Below-Deck Sensor Operated Faucets

SLEEK NEW DESIGNS WITH SENSOR TECHNOLOGY

These redesigned M•Power Below-Deck Sensor Operated Faucets deliver superior benefits for commercial customers, such as, an updated look, simplified installation, effortless maintenance, optimal hygiene, flawless reliability and vandal-resistant operation for a longer life and lower lifetime cost. Moen® Commercial's new battery-life-extending technology allows M•Power faucets to function for up to 8 years with just four AA batteries.

Persistence prevailed and we got Friday, June 6th, 2025.

On-Demand Pollution Solutions

On-Demand Products for Automatically Diverting Wash Water to Sewer and Rainwater to the Storm Drain.

WDS-WDTS4x4CW

Trash can washout is no longer a polluting problem. Simply place the inverted trash can on the cast iron grate, turn on the water and like a flash, the trash can is clean.

The wash area is also clean because the pit-mounted diversion valve automatically opens with water use, diverting contaminated trash can wash water to the sewer. Stormwater goes to the storm drain when the transfer valve is closed.

WDS-BDPSWTS

Engineered for outdoor showers that require separation between wash water and rainwater. The Beach, Deck and Pool Shower System offers a seamless solution, where wash water is efficiently directed to the sewer system, ensuring that soaps, shampoos, suntan lotion, and other contaminants are properly processed.

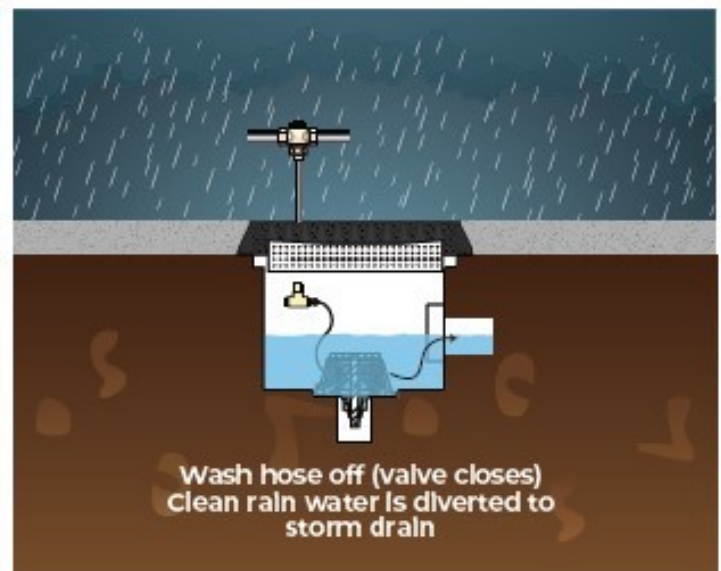

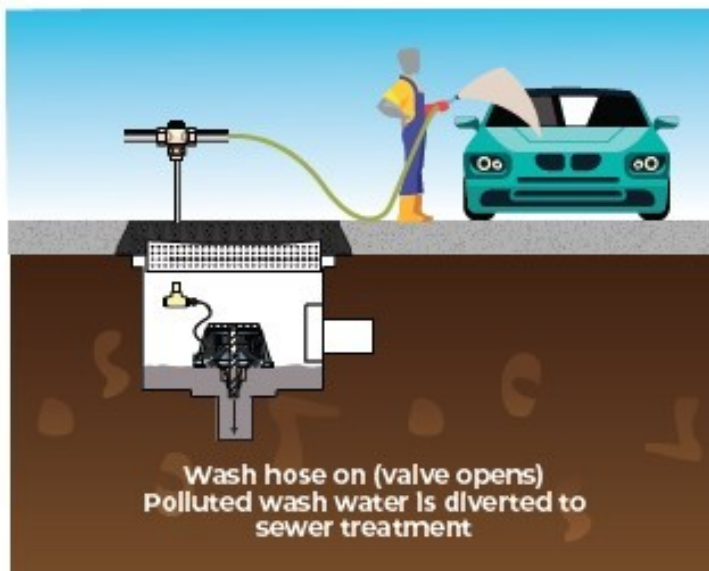

Simultaneously, it redirects rainwater to the storm drain, preventing any cross-contamination.

Against Defects in Materials or Workmanship

Automatically send washwater to sewer and clean water to storm drain

Treat Washwater NOT Clean Rain Water

Proudly Made in America

Our New Sponsors

 **CircuitSolver®**
A ThermOmegaTech® brand

Spec It And Forget It.

Installed at the end of each branch or riser before the return, CircuitSolver® uses our unique Thermoloid® wax thermal actuator to modulate the valve open and closed in response to temperature variations to maintain a specified temperature in each branch/riser.

Eliminate Complaints and Callbacks

Responding automatically to its set temperature, CircuitSolver® continuously modulates to deliver on-demand hot water to any fixture.

Engineered for Flexibility

The standard CircuitSolver® valve is offered in six sizes from ½" to 2", and our assemblies are available in various configurations.
