The SOUTH FLORIDA NEWS is a publication of the South Florida Chapter of the American Society of Plumbing Engineers. The Society or Chapter assumes no responsibility for any advertisements, statements by any officer or member which may be construed as an approval or disapproval, or official position of the Society, of the material contained herein. Local Chapters are not authorized to speak for the Society.

Thank You & Welcome!

As we step into 2026, the ASPE South Florida Chapter would like to extend our deepest gratitude to all of our 2025 sponsors. Your support and partnership helped make last year an incredible success, and we truly appreciate your commitment to our industry and community. Now, we look forward to an exciting new year filled with opportunities! Become a 2026 sponsor and join us in advancing plumbing engineering excellence across South Florida. Let's make 2026 even bigger and better—together! For sponsorship details, contact us today.

Presidents Report David Erickson

Greetings Members,

The BOD has been extremely busy preparing for the events in 2026. If you are an affiliate and would like to participate and be recognized in our

newsletter and at chapter events you can click on this link for the levels of sponsorship: <https://aspemiami.com/Sponsorship>
If you are a non-member and would like to join our chapter, please use this link to sign up: <https://aspemiami.com/join>

If you are interested in joining our next meeting at Famous Daves's 8210 NW 36th Street Miami, FL. 33166 you can click on this link: <https://aspemiamichapter.starchapter.com/meetinginfo.php>

To solidify the question, does the S. FL ASPE Chapter have fun? That answer is "YES". We know that if you work hard you need to play harder. Click on this link and you will go to our Photo Gallery to see that we believe in networking our local and national industry relationships to strengthen our industry. <https://aspemiami.com/gallery.php>

Special Acknowledgements:

I would like to thank (and you can too) the entire BOD for their hard work on the Clay Shoot and the Top Golf Event in Pompano Beach. Scott rallied the crew for the Clay Shoot and Freddie rallied the crew for the Top Golf Event. All BOD pulled their weight to have successful events.

New Members:

Below are our new members that have joined over the past 30 days, please take time to speak with them at our next meeting to get to know them better.

- Robert Browne PE / Nick Pannunzio Zurn / Dalton Usery
McWane Plumbing Group
- Gustavo Caldron Maqueira Engineering / Mario Gutierrez
Wolfberg Alvarez and Partners
- Angela Reyes Power

Our Chapter is constantly looking for individuals to help us to become bigger, better, stronger, and to provide our members with educational opportunities to grow professionally. If you have any topics or locations that would benefit our meeting, please reach out to any of our board members. Additionally, we are in search of a VP Legislative board member-this position is typically help by an inspector or engineer that help the chapter stay current on codes and standards.

Thank you for reading and feel free to reach out to me or any of our BOD if you have any questions or know of someone who is interested in joining the chapter and may need help to navigate through the process.

Membership Corner—Scott Smith (VP Membership)

ASPE South Florida Reflects on a Fantastic 2025 and Gears Up for an Exciting 2026

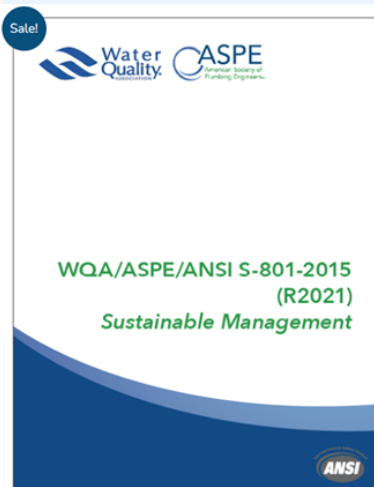

The ASPE South Florida Chapter wrapped up 2025 with tremendous energy, engagement, and growth. From enriching technical meetings to signature networking events, our chapter delivered value to our members month after month. Monthly General & Technical Meetings featured timely and impactful educational topics such as advances in plumbing system design, vacuum plumbing systems, and booster system design-bringing together professionals across the industry to learn, connect, and grow. These gatherings provided not only Continuing Education opportunities but also meaningful professional conversation and camaraderie.

The chapter continued to elevate its social and networking calendar with standout events. June's TopGolf Networking Event with the Chapter Sponsors and November's 5th Annual Sporting Clay Shoot drew members and industry partners for fun, friendly competition and invaluable networking. December's 1st Annual Region 3 Topgolf Tournament, hosted with the Orlando and Atlanta Chapters, capped the year with even greater regional collaboration and spirited fellowship.

Looking towards 2026, enthusiasm is high as the chapter plans an exciting lineup of events designed to continue professional development and community engagement. Early in the year, members will gather for the January General & Technical Meeting, focused on resilient design and water-conservation technologies, followed by the Women of ASPE South Florida "Galentine's" event-a celebration of connection and empowerment within our professional community.

With a strong foundation of education, networking, and member engagement, the ASPE South Florida Chapter enters 2026 with confidence and excitement-ready to elevate our professional community to new heights.

If you are not yet a member and are interested in joining us, I encourage you to come to a monthly technical meeting and see what ASPE is all about. We look forward to meeting you.

HARRY WARREN, INC

"Proudly Representing Quality Manufacturers Since 1968"

Who We Are

Harry Warren, Inc. is a leading manufacturers' representative company specializing in plumbing and mechanical products across Florida. Family owned for over 50 years, we've upheld the values of hard work, honesty, and integrity established by our founder, Harry Warren, and carried on today by the second and third generations.

Why Choose Us

- Extensive Manufacturer Network
- Multi-Channel Sales Expertise
- Superior Customer Service & Support
- Product Training & Education

Affiliate Liaison Report—Alfredo Hernandez

ASPE South Florida Claims Topgolf Victory and Celebrates a Successful Holiday Event

The ASPE South Florida Chapter closed out the year in festive and competitive fashion with its annual Christmas Topgolf event, bringing together members, sponsors, and industry partners for an evening of camaraderie, friendly rivalry, and celebration.

The event was made possible through the generous support of McWane, whose sponsorship played a key role in the success of the evening. The South Florida Chapter extends its sincere appreciation to McWane for their continued commitment to ASPE and to the advancement of the plumbing engineering community.

Adding to the excitement of the night, Team South Florida captured first place, proudly taking home the Topgolf trophy after defeating both the Orlando and Atlanta chapters. The win highlighted not only the competitive spirit of the chapter, but also the strong relationships and teamwork that define ASPE South Florida.

Beyond the competition, the event served as a celebration of a productive and impactful year for the chapter. ASPE South Florida thanks all members who took part and contributed to making the evening memorable.

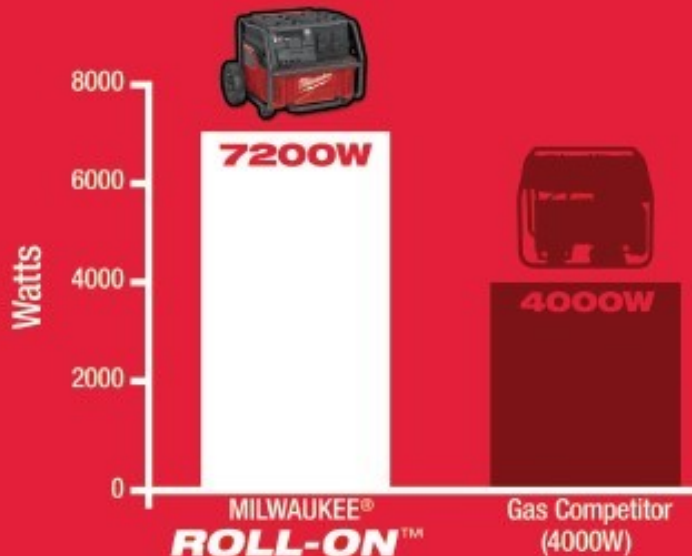

As the year ends, the chapter wishes all members and partners a Merry Christmas and a Happy New Year. Looking ahead, Chapter Sponsorship opportunities are now open, and the chapter is actively seeking National Sponsors for the upcoming Region III Meeting. Interested organizations are encouraged to reach out and engage with ASPE South Florida as we prepare for an exciting year ahead.

ASPE South Florida looks forward to continued growth, collaboration, and success in the coming year.

BEST POWER FOR THE TOUGHEST JOBS

POWER OUTPUT AND CAPABILITIES

HIGHER STARTING WATTS vs. GAS

LEARN MORE

or visit
<https://qr.mke.tl/29dxsf>

- Many power tools require an initial surge of energy within the first second, called Starting Watts or Peak Watts.
- Once the tools has started up and leveled off, this is knows as Continuous Watts or Running Watts.
- Some gas solutions will stall within seconds because they don't have sufficient Staring Watts for multiple high draw tools.

MADE IN AMERICA

No. 1 in Appearance, Construction, Performance & Warranty

Advantages over Imported systems

- *American made Lead Free Brass Diversion Valve
- *American Made Lead Free Brass Demand Valve
- *Heavy Duty Molded Hand Laid Fiberglass pit
- *Chemical Resistant Fiberglass Resins and Gelcoats
- *Baffled Stormwater Outlet for First Flush Protection
- *Optional SS pits for Custom Sites
- *Stainless Steel Silt & Solids Baskets
- *H2O Cast Iron ADA Grate & Frame
- *2" 4" or 6" Outlets to Sewer & Storm Water
- *1" NPT in & out Demand Valve Thread
- *No Electric or Roof needed
- *Concrete pits unnecessary
- *Provides Treatment for all Washdown Areas
- *IAPMO UPC IGC234-2016 & CITIES APPROVED
- *Meets CA Prop 65 Requirements

Applications

- *Car Wash & Detail Sites
- *Beach, Deck & Pool Showers
- *First Responder Chemical Showers
- *Trash Bin Drainage Areas @ Schools & Fast-Food Sites
- *Roof Top Dog Parks and Kennels
- *Auto Part Recyclers
- *Marinas & Boat Wash Down
- *Loading Docks
- *Aircraft Washdown

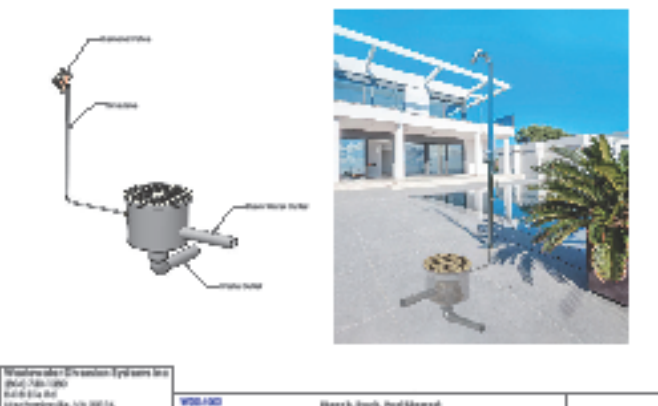

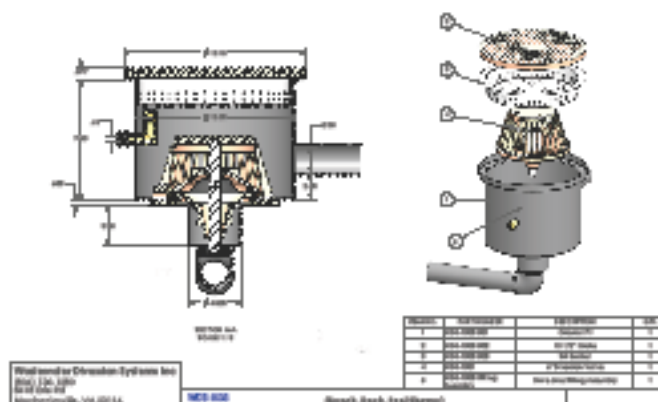

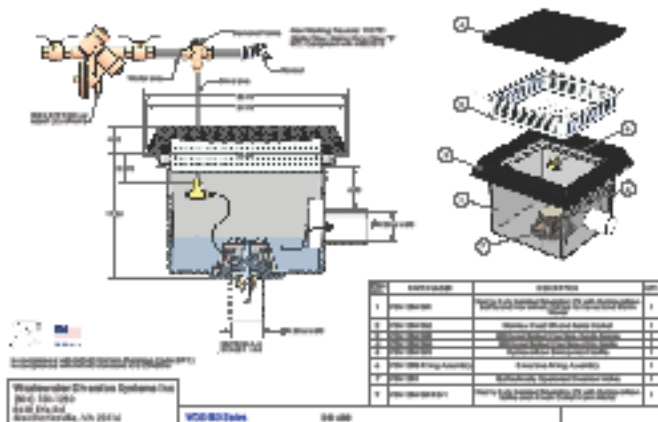

How it Works

The Hydraulic Actuated Diversion Valves by Wastewater Diversion Systems will automatically send all wash water to the sewer and clean rainwater to the storm drain.

When the demand valve detects water use on the wash pad it sends water down the drive line to hydraulically actuate the pit mounted diversion valve sending all wash water entering the pit to the sewer.

When washing is finished and detected by the demand valve, drive line water also ceases allowing the diversion valve to close.

Valve is closed; sewer is sealed and protected from rainwater. The baffled stormwater outlet performing as an oil water separator will keep free floating pollutants from a First Flush of rain inside the pit to be sent to the sewer at beginning of next wash down operation.

Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew that may affect the product. The built-in antimicrobial properties do not protect users or others from disease-causing organisms. Microban® is a registered trademark of Microban Products Company. ©2025, Bradford White Corporation. All rights reserved.

- Exclusive Vitraglas® tank lining with Microban antimicrobial technology
- Converts to the right voltage, phase, and kW input
- Field convertible by a qualified installer using a conversion kit
- Light, Medium, and Heavy-Duty models available

Rheem® IKONIC Commercial Tankless

Provides Installation Flexibility and Delivers Energy Savings

- Versatile Venting Materials
- Manifold up to 32 Units
- Pre-Built or Build on Site Rack Options
- Common Vent Length up to 170'
- Conversion Kit Available for Outdoor Applications
- 98% Thermal Efficiency

 **CircuitSolver®**
A ThermOmegaTech® brand

Spec It And Forget It.

Installed at the end of each branch or riser before the return, CircuitSolver® uses our unique Thermoloid® wax thermal actuator to modulate the valve open and closed in response to temperature variations to maintain a specified temperature in each branch/riser.

Eliminate Complaints and Callbacks

Responding automatically to its set temperature, CircuitSolver® continuously modulates to deliver on-demand hot water to any fixture.

Engineered for Flexibility

The standard CircuitSolver® valve is offered in six sizes from 1/4" to 2", and our assemblies are available in various configurations.

NEED SPECIAL HAZARD PROTECTION?

Victaulic Vortex™

Hybrid Fire Extinguishing System IS YOUR SOLUTION!

- DATA CENTERS / SERVER ROOMS
- CONTROL ROOMS / ELECTRIC SWITCH ROOMS
